EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Golian on 2/7/2005.

The application has been amended as follows:

Claims 3, 7 and 23-25 have been amended as shown in the attached two sheets.

Allowable Subject Matter

2. Claims 3, 4, 7, 16-18 and 23-25 are allowed.

The following is an examiner's statement of reasons for allowance:

3. Claims 3, 7 and 23-25 are allowable over the prior art of record since the cited references taken individually or in combination fail to particularly teach or fairly suggest adjusting a block size of data to transfer as a function of the maximum monitored level of utilization during said intervals between a maximum threshold value and a minimum threshold value. It is noted that the closest prior art, Shaffer shows a method of monitoring network performance parameters. However, Shaffer fails to suggest a method of changing the block size of data based on maximum and minimum threshold as required by the claimed invention.
